## About Chickens

A chicken coop not only benefits you, but it also benefits your chickens. Whether you're a hobby farmer or are an experienced chicken expert, chicken coops provide protection, comfort, and safety for your chickens. Coyotes & Foxes are some of the many predators especially prevalent in the middle TN & KY area. This is especially true if you do not have a rooster. Chickens need a stress free environment to maximize egg production. We have a variety of styles and colors.
